— OUR APPROACH

How we create value from every property

A disciplined four-step process, the same whether it's a buy-to-let in the South East or a development in Freetown.

1

Source

We find properties with strong potential: homes needing refurbishment, auction lots and buildings that can be repositioned.

2

Assess

Every opportunity is tested against strict criteria before we commit. If the numbers don't work, we walk away.

3

Improve

We refurbish or develop to a high standard, creating homes and spaces people genuinely want to use.

4

Let, manage or sell

Long-term rental, short-term letting, resale or strategic development, whichever creates the most lasting value.

Every property is weighed against seven tests

We hold our own money to the same standard we'd want for yours.

- ✓ Condition and location of the property
- ✓ Local housing demand
- ✓ Refurbishment and development costs
- ✓ Legal and regulatory requirements
- ✓ Financing and cash-flow sustainability
- ✓ Potential rental income or resale value
- ✓ The long-term benefit that can be created
